Report Description

Based on the mandatory selections of Location (State, Region or National), Baseline Year, and Baseline along with possible Handler Name, ID values, Units and Operating Status, this report will produce the unit-specific status of facilities on the GPRA Permits Baseline and/or the GPRA Renewals Baseline. If the Legal/Operating Status, Date Range, or Units criteria are selected, then only facilities that have at least one unit matching that criteria will be displayed. The effective date will show the actual date of the OP205 or PC205 event. If there is no OP205 or PC205 event, then it will show the actual date of the OP200 or PC200 event. Finally, if there is no OP200 or PC200 event, then it will show the effective date of the legal/operating status (Unit). Whichever date is shown will be indicated in parentheses.
